

Job Title: Therapist

Organization/DBA Overview

Appalachian Behavioral HealthCare (ABHC) a DBA of Pollen8 provides behavioral health services to the women in our treatment facility. We provide an innovative approach to recovery and hope to become leaders in the opportunity of long-term sobriety. Our goal is the reintegration of women in recovery back into society. We do so through economic development, agriculture, education, employment training, and basic life skills.

Job Summary

Therapists for ABHC handle Cognitive Behavioral Therapy, and past traumas of program participants. Therapists assist in developing and executing person-centered treatment plans including but not limited to assuring clients are developing healthy coping skills and addressing Adverse Childhood Experiences during sessions. Therapists will follow a guideline to treatment as outlined to develop skills as they relate to a 12-step program curriculum. Therapists will complete Bio-Psycho-Social assessments as needed in correlation with the ASAM level of care per client. Therapists will address past experiences of the client in three areas of life: social, legal, and financial.
